**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 42-49, 51-69, and 71-74 are rejected under 35 U.S.C. 102(b) as being anticipated by Gatewood #2,268,932. Gatewood discloses a wave sculpture comprising a flow surface 1; a platform or walkway 2 including a support 11; a reservoir of water, which may be located under the trackway; at least one water injector 3, the water injector including a pump and nozzle to provide flow of water onto the flow surface and to substantially conform to the flow surface such that the flow of water follows a path up and around the tunnel walls, thus simulating a wave form. The flow surface includes upwardly, horizontally, and downwardly inclined portions, wherein the walkway is disposed adjacent the upwardly and downwardly inclined portions and the horizontal portion is disposed above the walkway. Such wave sculpture is used for entertainment and aesthetic purposes associated with parks and amusements, therefore, such sculpture can be used as an awning for a building. Furthermore, Mason et al discloses the method for creating a walkthrough water sculpture, including: providing a flow surface; providing a walkway; providing a reservoir of water; and directing water from the reservoir onto the flow surface as broadly recited.

***Allowable Subject Matter***

3. Claims 1-8, 10-18, 20-39, and 75-81 are allowed.
4. Claims 50 and 70 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
